

# Project: Production of dried vegetables

## Сведения

### **Description of Kazakhstan partner:**

Funded in 2015

### **Description, project history:**

The project on the territory of the production base with the area of the land plot of the production base is 5.92 ha (is pledged as collateral for the project).

**Location:** Zhambyl region, Kordai district

**Production:** dried vegetables (onions). Capacity 600 tons.

**Current project status:** problematic, not functioning

**Project cost:** 202 517 122 tenge (*approximate project cost, subject to changes depending on various factors*)

### **The mechanism of realization of the project to a potential investor :**

Purchase and sale agreement, secondary leasing

**Support tools:** transfer to secondary leasing of equipment, purchase and sale agreement with installment payment

### **Brief description of the project:**

The project provided for the creation of an enterprise for processing onions by drying them. Onion drying technology provides for the use of raw materials with a quality that is not inferior to commercial products and the lowest refraction of raw materials, thereby ensuring processing of up to 97% of the crop. The estimated production volume is 600 tons per year of dried onions. Industrial equipment, 5-tiered, manufactured in China.

The territory of the production base with a land plot is 5.92 ha (is pledged as collateral for the project).

**Target market:** this field of activity has a low level of competition, the possibility of selling products in the China, the development of vegetable production in the region.

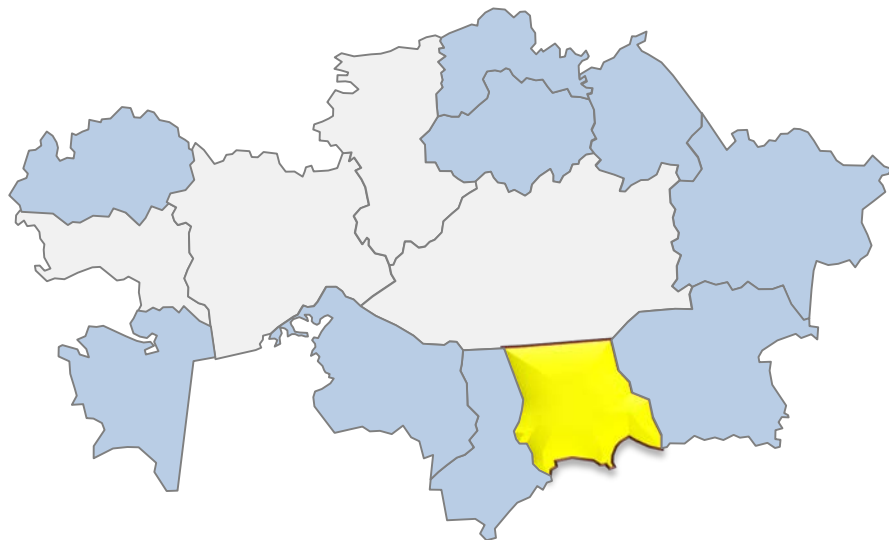

**Infrastructure:** highway, gas supply, power supply, high-quality water supply, isolated location. The power supply is carried out using its own 10KW transmission line with a transformer substation.

**Reason of project problem:** poor management, management problems.

**Cessation of activity:** 2015.
